RUSH DIRT LATE MODEL SERIES "BILSTEIN BANDIT" $135 SEALED- SPEC SHOCK

- THE RUSH LATE MODEL SERIES "BILSTEIN BANDIT" SEALED - SPEC SHOCK PACKAGE DELIVERS WORLD CLASS BILSTEIN NON-FADE PERFORMANCE TO CRATE LATE MODEL TEAMS FOR $135 PER SHOCK
- THE NINE SHOCK PACKAGE IS DESIGNED TO WORK IN SEVEN DIFFERENT SHOCK LOCATIONS ON MODERN FOUR-LINK DIRT LATE MODEL CHASSIS. THIS PACKAGE ALSO EASILY ADAPTS TO E-MOD AND STOCK CAR APPLICATIONS.
- THE "BILSTEN PACKAGE" IS A PROVEN WINNER AGAINST ALL BRANDS OF ADJUSTABLE SHOCK PACKAGES THAT COST THOUSANDS OF DOLLARS PER SET.
- THE "BILSTEIN BANDIT" PACKAGE INCORPORATES BILSTEIN LINEAR, DIGRESSIVE, AND C.O.B. DIGRESSIVE TECHNOLOGIES.
- "BILSTEIN BANDIT" SHOCKS ARE CONSISTENT FROM SHOCK TO SHOCK OF THE SAME VALVING.
- "BILSTEIN BANDIT" SHOCKS ARE THE MOST DURABLE RACE SHOCKS AVAILABLE ANYWHERE. THEY MAINTAIN THE SAME LEVEL OF PERFORMANCE OVER TIME, UNLIKE OTHER SHOCK BRANDS.

WHY IS THE $135 "BILSTEIN BANDIT" SHOCK EQUAL TO SHOCKS THAT COST FIVE TO TEN TIMES AS MUCH?

- BILSTEIN IS THE FATHER OF THE MONO-TUBE GAS SHOCK ABSORBER DATING BACK TO 1954. WITH SIXTY YEARS OF EXPERIENCE BILSTEIN HAS DEVELOPED LEADING EDGE TECHNOLOGIES THAT OTHER BRANDS ARE STILL TRYING TO DUPLICATE. BILSTEINS EXCEPTIONAL PERFORMANCE AND RELIABILITY PUTS THEM AHEAD OF THE COMPETITION.
- BILSTEIN SHIMS ARE MADE OF PROPRIETARY SPRING STEEL. THEREFORE...BILSTEIN VALVE STACKS HOLD THEIR RATE AND DO NOT DEFORM OVER TIME. THIS HELPS MAKE A BILSTEIN SHOCK CONSISTENT OVER TIME UNLIKE OTHER BRANDS.
- BILSTEIN SEAL PACKS ARE DURABLE OFFERING UNMATCHED LONGEVITY. THEY ARE ALSO DESIGNED FOR LOW SEAL DRAG REDUCING SEAL FRICTION, AND THAT MEANS MORE TRACTION AT THE TIRE PATCH.
- BECAUSE OF BILSTEIN'S SPRING STEEL SHIMS, ADVANCED PISTON DESIGN AND HIGHLY DEVELOPED SEAL TECHNOLOGY, "BILSTEIN BANDIT" SHOCKS PRODUCE ALMOST ZERO HYSTERESIS, AND THAT MEANS MORE SIDE BITE AND BETTER DRIVE GRIP.
- BILSTEIN'S HARDENED PISTON RODS ARE MICRO CHROME POLISHED. THIS MEANS THAT BILSTEIN PISTON RODS OFFER LESS SEAL DRAG, AND RESIST BENDING, ROCK DINGS AND THE SURFACE DAMAGE THAT DESTROYS ROD GUIDE SEALS IN OTHER BRANDS.
